LED Milky Drop Light Bulb A60 4W 470Lm E27 2700K - M02

Description

Efficient illumination and welcoming atmosphere thanks to the A60 Milky LED light bulb with opalescent white glass and traditional drop shape.

What characteristics does the M02 light bulb have?

The A60 M02 LED Milky Drop light bulb was designed both to guarantee good colour rendition and uniform lighting distribution. The 4W consumption ensures a 470Lm brightness, providing stunning illumination for both residential and commercial settings. The E27 fitting also makes the product compatible with most standard lamp holders.

What kind of lighting does this light bulb radiate?

This M02 light bulb emits a 2700K light colour, for a welcoming and soothing atmosphere in any room. Bedrooms, shops or living rooms, this light bulb will flawlessly complete your surroundings.

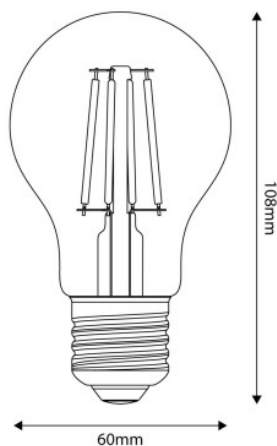

The **milky glass** light bulbs offer even lighting whilst reducing glare and eye strain. For an aesthetically pleasing composition and a soothing, comfortable illumination.

Which technology does this light bulb use?

The M02 LED Milky Mini Drop light bulb cuts back on energy consumption thanks to its technology based on LED filaments. Compared to traditional incandescent light bulbs, LED products guarantee up to 90% reductions in energy use. For high-quality illumination without having to worry about electricity bills.
